

SCREENING PORTAL

— EST. 2014 · VETTED IN BRITAIN

● BS7858 · SIA ACS · COP119 READY

Screen, onboard & stay compliant. No more paperwork.

The cloud platform built for security firms, care providers and labour suppliers who cannot afford a single compliance gap. Process BS7858:2019 background checks in days, automate site-specific inductions, and produce your SIA ACS audit evidence on demand.

COMPLIANCE CHECKPOINTS

One record per worker, from offer letter to audit.

01

Regulated workforces are still run on spreadsheets, scanned ID and email chains. Screening Portal replaces all of it with a single secure record per worker, built around BS7858:2019, SIA ACS and COP119 from day one.

BS7858 Protect Package ⁰¹

Full government-standard screening: identity, right-to-work, five-year employment and address history, criminal record and financial probity, evidenced in one tamper-proof file.

Smart inductions & sign-off ⁰²

Mobile-friendly, site-specific inductions with mandatory modules, e-signatures and instant pass or fail reporting, so nobody reaches site un-inducted.

Evidence on demand ⁰³

Export a complete SIA ACS or COP119 evidence pack per worker, in chronological order, with a client-facing reporting portal for your end customers.

WHAT THE PROTECT PACKAGE COVERS

- ✓ **Identity verification.** Document, biometric and liveness checks against passport, driving licence and Home Office digital identity standards.
- ✓ **Right-to-Work.** Home Office share-code validation, IDSP-aligned digital RTW, and automated re-checks before expiry.
- ✓ **5-year address history.** Automated gap-analysis flags every unexplained period, with worker-supplied evidence requested in-app.
- ✓ **5-year employment history.** Reference requests, chase-ups and consolidated employer responses, with a full audit trail of attempts.
- ✓ **Criminal record (DBS).** Basic, Standard and Enhanced DBS applied for, tracked and stored against the worker profile.
- ✓ **Credit & CCJ check.** Where BS7858 financial probity applies, soft-search credit reference and CCJ identification.

From offer letter to first shift in four steps.

Every step is digital, time-stamped and exportable as evidence. No chasing references, no hunting for documents.

1

Invite the candidate

Trigger a branded onboarding link by email or SMS. The candidate completes identity, right-to-work and consent on any device, with no account to create.

2

Automated BS7858 vetting

The platform requests five-year history, references, criminal record and credit checks in parallel, and flags every gap for action rather than waiting in sequence.

3

Site induction & sign-off

Push role and site-specific modules. The worker e-signs, and your team receives a real-time pass or fail notification against that assignment.

4

Deploy and stay compliant

A live status board, automatic refresher and expiry reminders, and a one-click ACS or COP119 evidence pack whenever an auditor or client asks.

INCLUDED WITH EVERY ACCOUNT

Your workforce's training hub. Included.

Every subscription unlocks the Training Hub for your whole team. Scenario-led courses on the standards your auditors care about, with framable certificates, so officers earn their training record while you screen them. The BS 7858:2019 vetting course is free to all users.

Sector-specific workflows out of the box.

From SIA ACS audits to CQC inspections, the rules vary and the platform adapts. Sector packs arrive pre-built with the right screening, induction and audit workflows.

SIA ACS · BS7858 · COP119

Security & manned guarding

Run every officer through full BS7858:2019 vetting before deployment, with SIA licence expiry tracking, assignment instructions and a client-facing audit portal.

98.7% first-time SIA ACS audit pass rate among clients

CQC · DBS · KLOES

Care providers & staffing

Enhanced DBS, right-to-work, vaccination and training records in one worker profile, organised the way an inspector expects to be shown them.

9 hrs saved per new starter onboarded

GLAA · REC · MASTER VENDOR

Labour suppliers & agencies

Place workers faster and prove compliance to every end client, with bulk onboarding and master-vendor reporting across multiple contracts.

3 days typical time-to-deploy a screened worker

CSCS · CHAS · CONSTRUCTIONLINE

Construction & facilities

CSCS card validation, site inductions and equipment custody for every contractor, on every visit, with subcontractor packs kept current.

62% less induction admin on average

ALSO SUPPORTED

Hospitality and licensed premises (personal licence, allergens, health and safety), professional services (legal, finance and corporate), and industrial operations (manufacturing, waste and wholesale).

Built on the standards your auditors care about.

Every workflow, record and export is mapped directly to a recognised UK compliance framework.

FRAMEWORK	WHAT THE PLATFORM DOES WITH IT
BS7858:2019	The UK standard for vetting personnel in secure environments. Full workflow, gap analysis and re-screen intervals at 36 months, configurable.
SIA ACS	Pre-built Approved Contractor Scheme evidence pack, assignment instructions, licence expiry tracking and a continuous improvement record.
BSI COP119	Best-practice guidance for the security guarding industry. Workflows aligned clause by clause.
UK GDPR & DPA 2018	Lawful processing, retention controls, DSAR support and consent-based screening.
ISO 27001	UK-hosted on ISO 27001 certified data centre infrastructure with role-based access control.
Sector regulators	Care Quality Commission, Disclosure and Barring Service, and Gangmasters and Labour Abuse Authority.

SIMPLE, SCALABLE PRICING

Pay per active worker. Cancel any time.

Credit-based pricing: you buy credits and spend them when you screen or onboard a worker. Initial use is free, so you can run the full platform before committing. Every plan includes BS7858 workflows, evidence packs and UK-based support.

STARTER

For small teams

Core screening and onboarding for teams up to 50 active workers, with the BS7858 workflow, digital right-to-work and up to three induction templates.

PROFESSIONAL

For growing operators

Everything in Starter plus the SIA ACS evidence pack and client portal, unlimited induction templates, API access and bulk import. Volume credit discounts apply.

ENTERPRISE

For multi-site groups

Dedicated screening team, single sign-on, custom SLAs, white-label client portals and procurement and security packs for 500+ active workers.

NEXT STEPS

Stop chasing paperwork. Start passing audits.

05

Start a free trial, or talk to the UK team about a tailored demo and a procurement pack. Initial use is free and there is no card required to begin.
